INTRODUCTION

I have been retraining myself within web development for the past 6 months. I enjoy finding solutions, learning new things and have a talent for being able to streamline processes.

I've recently certified from The Coders Guild in JAMStack Frontend Web Development to refresh my skills.

Currently seeking a Junior Web Developer role or other relevant job to get my foot in the door and start to get some real experience where I can develop my skills and work towards my long term goals.

EDUCATION

- BS Computer Science from **Global Institute Lahore**
- **The Coders Guild** - JAMStack Skills Bootcamp
- Certified from **PSDF** in Mobile Application Development from Oct 2017 to March 2018

EXPERIENCE

Mikronexus as Front End Developer
Aug 2018 - Nov 2019
Worked on multiple food chains related applications including online ordering, Point of sales, inventory etc.

Find my Github with some ongoing projects here:
